Tuples

```
ordered, immutable, written with () round brackerts
```

Create Empty Tuple

```
tuple = ()
    or
tuple = tuple()
```

Tuple Length

```
len(tuple)
```

Accessing Tuple Items

```
tuple[index]
```

Slicing Tuples

```
tuple[start:end:step]
```

Changing Tuple to List

```
list = list(tuple)
# purpose to modify items
```

Check Item in a Tuple

```
"item" in tuple #True/False
```

Joining Tuples

```
tuple3 = tuple1 + tuple2
```

Deleting Tuples

```
del tuple
```
